

MYLAN PARK

PAVILION

The outdoor open pavilion is a clear-span steel framed structure featuring a 4:12 pitch, 20 pound live-load, 90 mile-per-hour wind load, and 30 pound ground snow load. The columns, frames, roof purlins, bracing, and secondary structural components are shop-painted with protective redoxide primer. The roof boasts 26 gauge prefinished galvalume panels with exposed hex-head fasteners, gutter and downspouts, and open walls.

PAVILION DIMENSIONS

- » Approximately 140'ft long X 62'ft wide
- » The corridor eave has a height of 14'ft
- » The main hall eave has a height of 17'ft 8" in

EVENTS

This open outdoor space is incredibly versatile and designed for private, corporate, community, fundraising, and/or charity functions such as:

- » Weddings
